### *Remembering Leo Chan*

We were saddened to learn in January that Leo Chan, the 2010 winner of the Raymond A. LeClair Scholarship, had died suddenly. The 19-year-old Pinetree Secondary School grad, who was studying at the University of Victoria, passed away after contracting meningococcal disease. In a speech delivered to the Awards Night gathering last year, Leo made a great impression when he spoke with enthusiasm about what the scholarship meant to him and what his plans for the future were. Our condolences go out to Leo's family and friends.
